INDEPENDENT AUDITORS' REPORT

To the President and Village Council Village of Kingsley, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Kingsley, Michigan, as of and for the year ended February 28, 2005, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village of Kingsley, Michigan's, management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Kingsley, Michigan, as of February 28, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Accounting Standards*, we have also issued our report dated June 6, 2005, on our consideration of the Village of Kingsley, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over the financial reporting and compliance and the results of that testing and not to provide an

opinion on the internal control over financial reporting or on compliance. That report is an integral part of the audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages iii through xii and 33, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepting in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Kingsley, Michigan's, basic financial statements. The other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Village of Kingsley, Michigan. The other supplementary information and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BAIRD, COTTER AND BISHOP, P.C.

Baird, Cottle & Bishop, P.C

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

Management's Discussion and Analysis

The management of the Village of Kingsley, Michigan ("the Village") offers this narrative overview and analysis of the financial activities of the Village for the fiscal year ended February 28, 2005 for the benefit of the readers of these financial statements. This management's discussion and analysis is intended to assist the reader in focusing on significant financial issues and to provide an overview of the Village's financial activity. We encourage readers to consider the information presented here in conjunction with the financial statements as a whole, which can be found in this report.

Financial Highlights

Government-Wide

❖ The assets of the Village exceeded its liabilities at the close of this fiscal year by \$6,518,248 (shown as *Net Assets*), representing an increase of \$1,308,977 over the previous fiscal year. Governmental Funds represented \$138,605 of this increase, while Business-Type activities accounted for \$1,170,372 of the increase.

Fund Level Financial Highlights

- ❖ As of February 28, 2005, the governmental funds of the Village of Kingsley reported combined ending fund balances of \$1,265,910, of which \$447,158 is unreserved.
- ❖ The unreserved fund balance of the Village's General Fund decreased this year to \$300,758.

Long-Term Debt

❖ The Village of Kingsley's total debt increased by \$1,131,382 during the fiscal year.

Overview of the Financial Statements

The Village of Kingsley's financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements This report includes government-wide statements as required by GASB Statement Number 34. The *government-wide financial statements* are designed to provide a broad overview of the Village's financial position. The Statement of Net Assets and the Statement of Activities are two financial statements that report information about the Village as a whole, and provide measurements of long-term trends. They are presented using a method of accounting that is similar to a private-sector business.

The Statement of Net Assets (Pages 1-2) presents information on all of the Village's assets and liabilities, the difference between the two being reported as the Net Assets of the Village. Over

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

time, increases or decreases in net assets can serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. An increase in net assets would indicate an improvement in financial condition. On the other hand, a consistent decrease over time in net assets may indicate a decline in the financial health of an organization.

The Statement of Activities (Page 3) gives the information on the revenues and expenses causing the underlying change in the government's net assets during the most recent fiscal year. All changes in net assets are reported as soon as the change occurs, regardless of the timing of related cash flows.

Both of these statements distinguish functions of the Village that are principally supported by property taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or most of their costs through user fees and charges (business-type activities). Governmental activities of the Village include general government, public safety, major and local streets, public works, culture and recreation. Business-type activities of the Village include water and sewer utility services.

Focus on Funds

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus has shifted, however, to Major Funds, rather than the previous focus on fund types. The Village's major Governmental Funds include the General Fund, Major Street Fund, Local Street Fund, Recreational Complex Fund and the Oil, Gas and Mineral Trust Fund. The major Proprietary Funds include the Water Fund and Sewer Fund. Presentation of major funds can be found on pages 36-65 of this document.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Each fund is operated similar to a completely separate entity, with its own set of balancing accounts. The Village of Kingsley uses fund accounting to ensure compliance with finance-related legal requirements. There are three basic types of funds: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds Many of the Village's basic services are reported in the governmental funds. Governmental funds account for essentially the same functions as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This is known as the modified accrual system of accounting. Under this reporting system, capital items, debt payments and certain other items are treated differently than on the government-wide statements. These items are recorded in the governmental fund statements on the Statement of Revenues, Expenditures and Changes in Fund Balance as an expenditure. No depreciation is recorded on capital items. The balance sheet for governmental funds does not

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

include any capital items or long-term debt. Governmental funds for the Village include the General Fund as well as the special revenue, capital project, and permanent funds.

Proprietary Funds Proprietary funds account for services for which the Village charges its customers for the services they are provided. These charges can be to external customers or other agencies within the Village. There are two types of proprietary funds:

- Enterprise funds are used to report business-like activities of the Village. These activities intend to recover the full cost of the services through the fee charged to the customers. The Village has two enterprise funds, which are the Water Fund and Sewer Fund.
- Internal Service funds are the second type of proprietary funds. These funds provide services to other departments within the Village. This fund allows the Village to allocate costs of centralized services such as the Village's vehicles and equipment. The Village has one internal service fund.

Component Units The Village's Comprehensive Annual Financial Report includes reporting on separate legal entities for which the Village has some level of financial responsibility. These funds are shown in a separate column. The Village's only component unit is the Downtown Development Authority.

Notes to the Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a complete understanding of the information provided in both the government-wide and the fund financial statements. The notes can be found beginning on page 18 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements. This information can be found on page 33 of this report.

Government-Wide Financial Analysis

The Statement of Net Assets is the first statement in the Government-Wide Financial Statements section of this document. This statement is useful for providing an indicator of the Village's financial position over time. The Net Assets of the Village are \$6,518,248 at February 28, 2005, meaning that the Village's assets were greater than its liabilities by this amount. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

Village of Kingsley Net Assets

	G	overnmental Activities	В	susiness-Type Activities	Total Primary Government			
		<u>2005</u>		<u>2005</u>		<u>2005</u>		
Current and other assets	\$	1,422,227	\$	1,195,560	\$	2,617,787		
Capital Assets		1,385,999		4,587,634		5,973,633		
Total Assets	\$	2,808,226	\$	5,783,194	\$	8,591,420		
Long-term liabilities	\$	60,996	\$	1,405,653	\$	1,466,649		
Other liabilities		138,026		468,497		606,523		
Total Liabilities	\$	199,022	\$	1,874,150	\$	2,073,172		
Net Assets Invested in capital assets								
net of related debt		1,310,550		3,000,634		4,311,184		
Unrestricted		1,298,654		908,410		2,207,064		
Total Net Assets	\$	2,609,204	\$	3,909,044	\$	6,518,248		

The most significant portion of the Village's Net Assets is the investment in capital assets (e.g. land, buildings, equipment, infrastructure, and others), less any related debt that is outstanding that the Village used to acquire or construct the asset. The Village has \$2,207,064 in unrestricted Net Assets. These assets represent resources that are available for appropriation, but are limited by Village policies regarding their use.

The total net assets of the Village increased \$1,308,977 in this fiscal year, which is a good indicator that the Village experienced positive financial growth during the year. As a result, the Village ended the fiscal year in better condition than when the year started.

The following table illustrates and summarizes the results of the changes in the Net Assets for the Village. The condensed information was derived from the Government-Wide Statement of Activities.

Governmental Activities

The following chart details the revenue sources for the governmental activities of the Village for the fiscal year ended February 28, 2005:

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

The most significant portion of the revenue for all governmental activities of the Village of Kingsley comes from Operating Grants and Contributions. This figure includes Michigan Transportation Fund (Act 51) money for the Major and Local Streets as well as private contributions and contributions from local units for the Recreation Complex Fund.

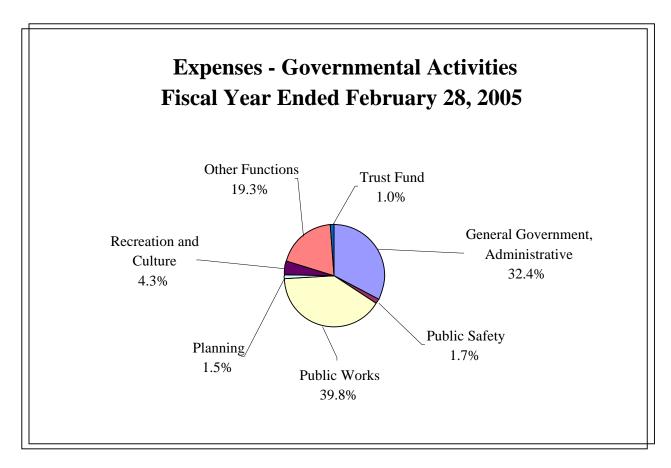

Property Taxes are a significant portion of the revenue for all governmental activities of the Village. The Village's operating millage in 2005 was 10.1677 mills. The Village's charter allows the Village to levy up to 12.5 mills for operations. Due to State statutes, the Village is currently at its maximum tax levy, and is unable to increase the millage without the approval of the voters.

State shared revenue is collected by the State of Michigan and distributed to local governments by formula allocation of portions of the State sales tax. In 2005, the amount of state shared revenue received by the Village once again trended downward, representing declining sales tax collections and discretionary reductions by the State in revenue sharing payments.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

The following chart depicts expenses of the governmental activities of the Village for the fiscal year ended February 28, 2005:

The Village's governmental activities expenses are dominated by the Public Works expenses that total 39.8% of total expenses. The Village spent \$183,240 in FY2004/2005 on Public Works. Expenses in the Major Street Fund (\$70,314) and Local Street Fund (\$78,023) represent a majority of the Public Works expenditures. General government represented the next largest expense at \$149,162, or 32.4% of total expenses within the governmental activities.

Business-Type Activities

The Village's business-type activities accounted for an increase of \$1,170,372 in the Village's Net Assets, or about 89.4% of the total growth in the Village's net assets for the fiscal year ended February 28, 2005.

The Business-type activities of the Village include the Water Fund and Sewer Fund, which provide water and sewer utility services to Village residents as well as commercial customers.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

The Water and Sewer activity represents the business-type activities of the Village. Water activity accounts for 49.1% of the total expenses and 38.4% of the total revenue of the business-type activities. Sewer activity accounts for 50.9% of the total expenses and 61.6% of the total revenue of the business-type activities.

Financial Analysis of the Government's Funds

Governmental Activities At the completion of the Village's fiscal year ended February 28, 2005, its governmental funds reported fund balances of \$1,265,910. Of this amount, \$453,304, or 35.8% is unreserved. This amount includes \$29,603 designated for street improvements and \$116,697 for civic improvements. An additional \$306,904 of unreserved and undesignated fund balance exists in the Village's Special Revenue funds. The remaining \$812,606 of fund balance of the governmental funds is reserved for specific purposes and is therefore not available for new appropriation.

General Fund – The General Fund is the main operating fund of the Village. The General Fund decreased its fund balance in this fiscal year by \$74,580, bringing the balance to \$306,904. All of the General Fund's major functions with the exception of Public Works and Culture and Recreation ended the year with expenditures below appropriated amounts. Property tax revenues in the General Fund increased \$5,050 in 2005, an increase of 2.6%. State shared revenue decreased by \$4,300 from the amount received in the previous fiscal year, representing a 3.1% reduction which resulted from State actions in response to the economic slowdown experienced throughout the State.

Major Street Fund – The Major Street Fund completed \$27,752 in street construction and improvements in this fiscal year. The fund balance of the Major Street Fund ended the year at \$29,396. This was a reduction of \$5,663 from the previous year. The Village used funds accumulated from previous years in order to complete this year's projects.

Local Street Fund – The Local Street Fund completed \$38,441 in street construction and improvements in this fiscal year. State grant funds provided \$35,240 for construction costs, or nearly 91.7% of total costs. The fund balance of this fund is at \$207.

Proprietary Funds The Village's proprietary funds provide virtually the same information as the government-wide statements; however more detail may be found in the fund financial statements.

Water Fund – The Water Fund ended this fiscal year with \$142,200 in unrestricted net assets. Charges for services yielded an overall increase in operating revenues of \$12,929, a 8.0% increase. This fund experienced a decrease in interest income of \$1,765, or 68.5% from the previous fiscal year. The net assets of this fund increased by \$35,739 in 2005. This fund remains in sound fiscal condition moving forward.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

Sewer Fund – The Sewer Fund ended this fiscal year with \$842,173 in unrestricted net assets. Charges for services yielded an overall increase in operating revenues of \$74,242, a 40.0% increase. This fund experienced an increase in interest income of \$484, or 5.6% from the previous fiscal year. The net assets of this fund increased by \$1,126,656 in 2005, which included a \$975,268 Rural Utilities Service Grant. This fund remains in sound fiscal condition moving forward.

Capital Asset and Debt Administration

Capital Assets. The Village's investment in capital assets for the governmental and business-type activities as of February 28, 2005 amounted to \$5,973,633 (net of accumulated depreciation). Capital assets of the Village include any items purchased that cost in excess of \$1,000 and have an expected useful life of over one year. The Village has invested in a broad range of capital assets, as detailed below:

Village of Kingsley Capital Assets as of February 28, 2005

		vernmental Activities	siness-Type Activities	Total Primary Government		
Land and Land Improvements	\$	349,598	\$ 257,304	\$	606,902

Net Capital Assets		1,385,999	\$ 4,587,634	\$	5,973,633	

Major capital asset events during FY2005 included the following:

- Street construction, sidewalks and other improvements to Blair Street totaling \$88,411.
- Splash pad and 18 hole disc course added to parks totaling \$18,881.
- Installed a water main on Blair Street at a cost of \$33,912.
- Constructed a new pole barn for \$15,086.
- Sewer System Improvements \$2,194,653.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED FEBRUARY 28, 2005

Additional information regarding the Village's capital assets can be found in the Notes to Financial Statements section on pages 26 and 27.

Village of Kingsley Outstanding Debt Contracts and Revenue Bonds as of February 28, 2005

	Gove	ernmental	H	Business-Type	Total Primary Government			
	A	ctivities		Activities				
Contracts and Notes	\$	75,449	\$	0	\$	75,449		
Revenue Bonds		0		1,587,000		1,587,000		
Total		75,449		1,587,000	\$	1,662,449		

The Village issued new bonded debt in FY2005, of \$1,222,000 and the total debt increased from \$533,383 at February 29, 2004, to \$1,669,765 at February 28, 2005, an increase of \$1,131,382. More information on the Village's long-term debt is available in the Notes to Financial Statements section of this document, on pages 28-30.

Contacting the Village's Finance Department

This financial report is designed to provide the wide variety of users of this document with a general overview of the Village's finances and demonstrate the Village's accountability for the money entrusted to it. If you have any questions regarding this report or need additional financial information, please direct your requests to the Village of Kingsley, P.O. Box 208, Kingsley, MI 49649, or call us at (231)263-7778.

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Village of Kingsley, Michigan, is a general law village incorporated under the General Village Act of 1895. As required by generally accepted accounting principles, these financial statements present all activities of the Village. Entities for which the Village is considered to be financially accountable are called component units. The Village has one component unit, the Downtown Development Authority.

B. Government-wide and Fund Financial Statements

During fiscal year 2005, the Village adopted GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statements No. 37 and No. 38, and applied those standards on a retroactive basis. GASB Statement No. 34 establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following three net asset categories.

Invested in Capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, and contributors, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets are often designated, to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources which are imposed by management, but can be modified or removed.

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially responsible.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide focus is more on the sustainability of the Village as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The fund financial statements are similar to the financial statements presented in the previous financial reporting model.

Separate financial statements are provided for governmental funds, and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, interest and special assessments associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivables due within the current period is considered to be susceptible to accrual as revenue of the current period. Sales taxes collected and held by the state at year end on behalf of the government are also recognized as revenue. All other revenue items are considered to be measurable and available only when cash is received by the government.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The accounts of the Village are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

The Village of Kingsley reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Major Street Fund* is used to account for the financial activity of the streets designated by the State of Michigan as major thoroughfares.

The *Local Street Fund* receives all local street money paid to the Village by the State, accounts for all construction, maintenance, traffic services, and snow and ice control on all streets classified as local.

The *Recreation Complex Fund* accounts for the acquisition of capital assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

Fiduciary funds are accounted for using the accrual method of accounting. Fiduciary funds account for assets held by the Village in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the Village under the terms of a formal trust agreement. Fiduciary funds are not included in the government-wide statements.

The *Oil, Gas and Mineral Trust Fund* is a *permanent fund* and uses the accrual method of accounting. Permanent funds account for assets that are legally restricted to the extent that only the earnings, and not the principal, may be used.

The Village of Kingsley reports the following major proprietary funds:

The Water Fund and Sewer Fund record financial activity of the water system which provides water to customers and the operations of the Village's sanitary sewer system.

Additionally the Village of Kingsley reports the following fund types:

Internal Service Funds account for operations that provide services to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

various functions involved. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer Funds and of the Village's internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and for internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use the restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Equity

1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments - The Village's investment policy is in compliance with state law and authorizes the Village to invest in passbook savings accounts, negotiable and nonnegotiable certificates of deposit, repurchase agreements backed by the United States government or federal agency obligations, United States Treasury bills and bonds, bankers acceptances, federal agency instruments, money market funds and commercial paper. Investments in commercial paper must be rated in one of the two highest rating categories by Standard and Poor's or Moody's and are limited to fifty percent of a funds portfolio in accordance with state statutes.

Investments are stated at fair value which is determined using selected bases. Securities traded on a national exchange are valued at the last reported sales price. Managed funds not listed on an established market are reported at fair value as determined by the respective fund managers based on quoted prices of underlying securities.

2. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Property taxes attach as an enforceable lien on the property as of the date they are levied. Village taxes are levied and due July 1, and become delinquent after August 14. Village property tax revenues are recognized when they become both measurable and available for use to finance Village operations. Amounts which are not expected to be collected within sixty days are treated as deferred revenues.

The 2004 taxable valuation of the Village of Kingsley totaled \$20,230,130, on which ad valorem taxes levied consisted of 10.1677 mills for the Village of Kingsley operating purposes.

3. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Certain resources of the Water and Sewer Funds which are set aside for repayment of revenue bonds, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The "bond reserve" account is used to report resources set aside to make current debt service payments and to make up potential future deficiencies in the funds available for debt service. The "bond replacement" account is used to report resources set aside to meet unexpected contingencies or to fund asset renewals and replacements.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of proprietary fund capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

Property, plant and equipment of the primary government, as well as the component unit are depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>YEARS</u>
Buildings	50
Infrastructure	50
Land Improvements	20
Machinery and Equipment	5-10
Office Equipment	5-10
Vehicles	5-10

6. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused sick pay benefits. No liability is reported for nonvesting, unpaid accumulated sick leave. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

7. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

9. Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

- 1. Prior to March 1, the Village Clerk submits to the Village Council a proposed operating budget for all governmental funds for the fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- 2. The Village Council holds a public hearing and adopts a resolution approving the budgets.
- 3. All transfers of budget amounts between functions within the General Fund and any revisions that alter the total expenditures of any fund must be approved by the Village Council. General Fund expenditures may not legally exceed budgeted appropriations at the major function level. Expenditures in all other governmental funds may not exceed appropriations at the total fund level.
- 4. Formal budgetary integration is employed as a management control device during the year for all governmental fund types.
- 5. Budgets for the General, Special Revenue, and Capital Project Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). All appropriations lapse at year end. Budgeted amounts are as originally adopted, or as amended by the Village Council from time to time throughout the year.
- 6. Encumbrance accounting is not employed in governmental funds.

B. Major funds with expenditures in excess of appropriations were as follows:

	APPR	OPRIATIONS	EXPENDITURES
General Fund			
Public Works	\$	60,000	\$ 89,970
Culture and Recreation		20,000	36,223
Local Street Fund			
Public Works		77,595	78,023

No budget was adopted for the Oil, Gas and Mineral Trust Fund.

These overages were funded by greater than anticipated revenues or beginning fund balance.

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. Deposits and Investments

At year end, the carrying amount of the Village's deposits was \$1,561,422 and the bank balance was \$1,564,422. Of the bank balance, \$444,107 was covered by federal depository insurance and \$1,120,731 was uninsured and uncollateralized. The carrying amount of the Downtown Development Authority deposits was \$5,969 which was equal to the bank balance and fully insured.

The Oil, Gas and Mineral Trust Fund's investments are uninsured and unregistered investments for which the securities are held by Northwestern Bank trust department in the Village's name. The amounts of such investments at year-end are shown below and are reported at fair value as determined by Northwestern Bank.

			FAIK
		COST	VALUE
Federal Home Loan Mortgage Corporation Bonds	\$	149,469	\$ 148,874
Federal Home Loan Bank Bonds		227,784	225,668
Federal Farm Credit Bonds		199,562	197,914
Federal National Mortgage Association Bonds		47,235	48,141
Federal Home Loan Mortgage Association Bonds		50,000	49,977
Mutual Funds	_	36,254	36,254
	\$_	710,304	\$ 706,828

EAID

B. Receivables

Receivables as of year end for the government's individual major funds in aggregate, including the applicable allowances for uncollectible accounts are as follows:

			Oil, Gas And Mineral			
		General	Trust	Water	Sewer	Total
Receivables						
Taxes	\$	1,255 \$	0 \$	0 \$	0 \$	1,255
Accounts		12,564	0	15,289	30,475	58,328
Rural Utilities Service						
Grant Receivable		0	0	0	221,668	221,668
Accrued Interest	_	0	7,378	0	0	7,378
Receivables	\$	13,819 \$	7,378 \$	15,289 \$	252,143 \$	288,629

By ordinance, the Village can place substantially all of its delinquent receivables on the tax rolls as a lien against real property. As a result, its uncollectible accounts are virtually nil.

D. Interfund Receivables, Payables and Transfers

Individual fund interfund receivable and payable balances at February 28, 2005, were:

	INT	INTERFUND		ΓERFUND
<u>FUND</u>	RECE	EIVABLES	PA	YABLES
General Fund	\$	11,322	\$	1,020
Special Revenue Funds				
Major Street		0		13,447
Local Street		1,000		15,172
Enterprise Funds				
Water		20		11,214
Sewer		32,426		1,650
Internal Service Fund				
Equipment Fund		0		2,265
	\$	44,768	\$	44,768

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

All remaining balances generally resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All interfund balances outstanding at February 28, 2005, are expected to be repaid within one year.

Interfund Transfers as of February 28, 2005, were:	TRANSFERS		
	IN		OUT
Primary Government			
General Fund	\$ 0	\$	31,000
Major Street Fund	0		7,500
Local Street Fund	 38,500		0
	\$ 38,500	\$	38,500

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

F. Long-Term Debt

1. Primary Government

The following is a summary of debt transactions of the Village of Kingsley for the year ended February 28, 2005:

Governmental Activities:

				INSTALLMENT		
		REVENUE		PURCHASE	COMPENSATED	
		BONDS		AGREEMENTS	ABSENCES	TOTAL
Debt Payable at March 1, 2004 New Debt Incurred Debt Retired	\$	400,000 1,222,000 (35,000	•	125,355 0 (49,906	\$ 3 13,028 0 (5,712)	\$ 538,383 1,222,000 (90,618)
Debt Payable at February 28,	\$	1,587,000	\$	75,449	\$ 7,316	\$ 1,669,765
Due within one year	\$_	51,000	\$	21,769	\$ N/A	\$ 72,769

Debt payable at February 28, 2005 is comprised of the following individual issues:

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

Revenue Bonds:

\$215,000 Sanitary Sewer System Refunding Bonds, due in annual installments of \$15,000 to \$20,000 through June 1, 2013; plus interest at 4.80%. The	
Village has passed a resolution to call the bonds within a year.	\$ 145,000
\$410,000 Water Revenue Bonds due in annual installments of \$25,000 to \$30,000 through October 1, 2012; plus interest at 6.05% to 6.30%.	220,000
\$1,222,000 Junior Lien Sewer Revenue Bonds, due in annual installments of \$11,000 to \$65,000 through May 1, 2044; plus interest at 4.375%	1,222,000
Installment Purchase Agreements:	
\$135,800 Streetscape Installment Purchase Agreement payable in monthly installments of \$2,070 including interest at 4.69%. The Village has been paying an extra \$2,100 per month on the principal.	75,449
Other Long-Term Debt	
Accumulated sick pay owed to Village employees	7,316
	\$ 1,669,765

The annual requirements to amortize these debts outstanding other than compensated absences as of February 28, 2005, including interest payments of \$1,472,384, are as follows:

IV. OTHER INFORMATION

A. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters.

The Village participates in two distinct pools of municipalities within the State of Michigan for self-insuring property and casualty and worker's disability compensation. The pools are considered public entity risk pools. The Village pays annual premiums to each pool for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. Each of the pools maintain reinsurance for claims in excess of \$500,000 for each occurrence with the overall maximum coverage being unlimited. The Village has not been informed to any special assessments being required for the current year or the three prior years.

The Village continued to carry commercial insurance for other risks of loss, including employee health and accident insurance.

B. Segment Information – Enterprise Funds

The Village maintains two enterprise funds. The Water Fund and Sanitary Sewer System Fund account for the provision of basic utility services for all citizens. Selected segment information for the year ended February 28, 2005, is as follows:

	WATER	SANITARY SEWER	
	 FUND	SYSTEM FUND	Total
Operating Revenues	\$ 174,298	\$ 259,722	\$ 434,020
Depreciation/Amortization	31,829	70,564	102,393
Operating Income (Loss)	33,455	105,837	139,292
Nonoperating Revenues (Expenses)	4,124	45,551	49,675
Net Income (Loss)	37,579	151,388	188,967
Current Capital Grants	0	975,268	975,268
Fixed Asset Additions	64,831	2,181,649	2,246,480
Net Working Capital	86,462	762,851	849,313
Total Assets	983,297	4,779,638	5,762,935
Bonds Payable	220,000	1,361,653	1,581,653
Total Equity	700,267	3,152,288	3,852,555

NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2005

C. Retirement Benefits

Retirement benefits are provided to full-time Village employees through contributions to individual retirement accounts. Such contributions equal five percent of each employee's base pay. Individual retirement account balances become the property of the employee immediately. Therefore, there are no plan assets or liabilities which would be included as part of the Village reporting entity. Covered wages were \$85,860 and total wages were \$197,339.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and Village Council Village of Kingsley, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the discreetly presented component unit, each major fund, and the aggregate remaining fund information of the Village of Kingsley, Michigan as of and for the year ended February 28, 2005, which collectively comprise the Village of Kingsley, Michigan's basic financial statements and have issued our report thereon dated June 6, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Village of Kingsley's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Village of Kingsley's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the Village Council and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Mayor and Village Council Village of Kingsley, Michigan

We have audited the compliance of the Village of Kingsley, Michigan with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended February 28, 2005. The Village of Kingsley's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the Village of Kingsley's management. Our responsibility is to express an opinion on the Village of Kingsley's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Village of Kingsley's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Village of Kingsley's compliance with those requirements.

In our opinion, the Village of Kingsley complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended February 28, 2005.

Internal Control Over Compliance

The management of the Village of Kingsley is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Village of Kingsley's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the Village Council and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CERTIFIED PUBLIC ACCOUNTANTS

June 6, 2005

To the President and Village Council Village of Kingsley Kingsley, Michigan

During the course of our examination of the financial statements and records of the Village of Kingsley, Michigan, for the year ended February 28, 2005, we noted the following items which we would like to bring to your attention:

Equipment Rental Records

Spreadsheets are used to accumulate equipment rental hours and charges. We found numerous mistakes in posting usage information from the employee time sheets to these spreadsheets. More care should be taken in posting these amounts to insure that all funds are charged the correct amount for equipment rental. This is a repeat from last year.

Utility Accounts Receivable

Balances from the utilities billing software are not being reconciled to the related accounts receivable control accounts in the General Fund, Water Fund and Sewer Fund. The account balances in each funds general ledger should be reconciled to the aged accounts receivable report generated by the billing software on a monthly basis to ensure that all billing and collection transactions are being recorded properly. Care must be taken that the same cutoff is used for depositing and recording the receipts in the general ledgers as is used for posting transactions to the billing program.

Bank Accounts

Several of the bank accounts at Northwest Bank receive statements that do not end on the last day of the month. This makes it very difficult to reconcile those bank accounts to the general ledger accounts when performing normal month end processing. If the bank cannot accommodate the normal practice of having business account statements cutoff at the end of the month, the Village should consider changing to a bank that can provide that service.

Bond Reserve Accounts

The water and sewer revenue bond ordinances require that money be set aside on a monthly or quarterly basis in various bond reserve accounts. When these monies are moved from the receiving fund bank accounts to the reserve accounts, they should not be recorded as revenues and expenses in the Water Fund and Sewer Fund. The checks should simply be classified as debits in whatever accounts are receiving the funds and credits to the receiving fund accounts.

Proprietary Fund Principal Payments

When principal payments are made on loans or bonds in the Water Fund, Sewer Fund or Equipment Fund, they should be classified as a debit to the liability accounts in the funds general ledgers instead of being charged to an expense account. The accounting principles for these three funds are different than governmental funds. For instance, the principal payments that the General Fund makes on the streetscape loan are properly charged to an expense account.

Oil, Gas and Mineral Trust Fund Records

When the Oil, Gas and Mineral Trust Fund records were originally set up on Peachtree, the wrong fiscal year end was specified. As a result, its general ledger is maintained on a February 1, to January 31, fiscal year instead of the March 1, to February 28, fiscal year for all of the other Village Funds. This necessitates making journal entries each year to convert the general ledger numbers to the proper fiscal year end. We recommend that the Oil, Gas and Mineral Trust Fund be set up with the proper year end in Peachtree. This is a fairly simple process of creating a new fund, copying the chart of accounts from the old fund and entering the correct March 1, beginning balances. We are available to assist with that process if necessary.

We wish to express our appreciation for the cooperation and courtesy extended to our staff by the various Village employees during the course of our examination. In addition, we would like to thank the Village Council for giving us this opportunity to serve you. If you have any questions relative to the preceding comments and recommendations, or other areas of your annual audit, please feel free to call on us.
